Wadebridge.

U.K. Agent for The Syd Lawrence Orchestra
& other Artistes

Dear Mr. Bartlett,

Late summer last year Mr. Fisher fitted an Ultraburn to my Peugeot 309 GLD car, on an extended approval, and I would like to report how pleased I am with the results.

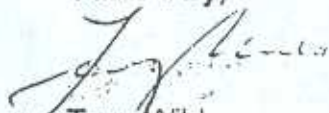

The performance of the car is greatly improved and the mileage per gallon has increased by at least 10%.

I have just returned from a journey to Dymchurch in Kent, some 320 miles, and I have averaged over 54 miles per gallon, and that travelling at consistent speeds of around 75 mph.

The car was recently examined for the MOT test, and the examiner reported that the emissions were the lowest percentage he had experienced being 0.95, which is a testament to the effectiveness of the Ultraburn. I shall certainly recommend it to all my friends and colleagues, not only for a diesel engine like mine, but also for both non-leaded and leaded engines, as I understand that with an Ultraburn fitted, no other alteration is needed for the car to use non-leaded fuel.

May I wish you every success in the future, and many thanks.

Yours truly,

Tony Wild
