D. Bartlett

Ref Ultra Burn

Dear Dave

As you are aware I run amongst others three Mercedes transporters, these vehicles are all 6 litre diesels and return between 14 and 15 mpg which includes local and long distance runs.

I fitted one of your units to one vehicle and I must admit not only is it smoother more responsive but the fuel consumption has risen to almost 18 mpg over the same routes.

If the vehicle carries on returning these figures as I am sure it will I will fit out the remainder of vehicles with Ultra Burn units.

Yours faithfully

*M. J. Champion*
